SACHIN MULGE

Full-Stack Developer(MERN) | React.js/Next.js, Node.js/Express.js

Pune, India | +91-7385950285 | sachinmulge98@gmail.com | github.com/SachinMulge18 |

PROFESSIONAL SUMMARY

Full-stack developer with 2.9+ years of experience building enterprise and government web applications on the **MERN stack**. Skilled in **React.js, Next.js, Redux Toolkit, RTK Query, TypeScript, Node.js, and Express.js**, **MySql** with hands-on experience in **Docker**, Linux, Amazon EC2, and **GitHub Actions (CI/CD)**. Delivered a 9-step government land acquisition portal managing 500+ parcels, built geospatial Leaflet.js tools processing 1,000+ polygons, and reduced redundant API calls by ~35% through caching. Also experienced in Playwright test automation, with working knowledge of Python and SQL.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3
Frontend: React.js, Next.js, Redux Toolkit, RTK Query, React Router
Backend: Node.js, Express.js, RESTful API Design, WebSocket, JWT Authentication
Database: MongoDB, Mongoose, MySQL, SQL
DevOps & Cloud: Docker, Linux, Amazon EC2, Git Action(CI/CD)
UI Libraries: Material-UI (MUI), Tailwind CSS, Bootstrap, formik, yup
Testing & Automation: Jest, React Testing Library, Playwright
Tools: Git, GitHub, Postman, Figma, VS Code, npm, React DevTools, GitHub Copilot, Cursor
Concepts: System Design , RBAC, Component Architecture, State Management, Agile/Scrum, Performance Optimization

PROFESSIONAL EXPERIENCE

Frontend & Test Automation Developer | Famark, Pune *May 2026 – Aug 2026*

- Developed an Agile project management platform using React.js/Next.js, Vite, Tailwind CSS, Redux Toolkit, Node.js and Express.js, integrating 30+ REST APIs for projects, sprints, backlogs, stories, CSV operations and workflows.
- Designed RESTful APIs with JWT authentication, RBAC authorization, validation, pagination, filtering, error handling and API security best practices.
- Optimized API performance by up to 30% through query optimization, pagination, efficient payloads and asynchronous processing
- Built reusable React components including Kanban boards, drag-and-drop workflows, optimistic updates and analytics; created Playwright E2E tests for critical workflows and cross-browser testing..
- Built Grafana monitoring dashboards and containerized the application with Docker; deployed on AWS EC2 using GitHub Actions CI/CD.

React.js / MERN Developer | Mounarch Tech Solutions and Systems, Pune *April 2025 – December 2025*

- Engineered role-based CRM dashboards and document verification platforms for 3 user roles using React.js, Redux Toolkit, RTK Query, and Node.js/Express REST APIs.
- Architected a 9-step land acquisition workflow (Shaktipeeth project) with Formik + Yup validation and P1/P2/P3 status tagging, managing 500+ parcels end-to-end.
- Built Leaflet.js maps with KML/KMZ-to-GeoJSON parsing, visualizing polygons with district/taluka/village-level tracking.
- Implemented OTP-based authentication, JWT-secured RBAC, and Razorpay payment integration via Express.js middleware.
- Containerized the CRM and land-acquisition platform's React.js + Node/Express stack with Docker, deployed on Linux EC2 via GitHub Actions CI/CD.
- Trained 20+ field staff on the Shaktipeeth government portal for land acquisition data collection.

React.js Developer | Compumatrix Technologies Pvt. Ltd. *June 2024 – March 2025*

- Spearheaded frontend architecture for the BBI project using React.js, Redux Toolkit, and RTK Query, cutting redundant API calls by ~35% through caching.

- Converted 40+ Figma design screens into production-ready React components with Tailwind CSS, maintaining consistent, responsive rendering across 4 major browsers on desktop and mobile.
- Delivered a 15+ component reusable UI library, boosting feature development velocity by ~25%.

React.js Developer | Perspicientia Consultancy Private Limited *October 2022 – October 2023*

- Integrated 10+ RESTful API endpoints for real-time data retrieval, improving application load time.
- Refactored legacy UI into modular, reusable components, improving maintainability and delivery speed.

KEY PROJECTS

BaseRM | *React.js/Nextjs | Expressjs |Redux Toolkit | Playwright*

- Automated Lead Management, Solution Management, Entity, Attribute, and Option Set workflows using Playwright.
- Automated CSV/Excel lead operations, activities, search, bulk deletion, and drag-and-drop customization workflows.
- Built reusable Playwright utilities and CSV-based execution/performance reporting to improve test maintainability and visibility.

Famark Planner | *React.js | Expressjs |Redux Toolkit | Playwright*

- Built Jira-like Agile workflows for Projects, Sprints, Backlogs, Stories, and Kanban boards using React.js, Node.js, Express.js, and REST APIs.
- Automated CSV/bulk operations, drag-and-drop workflows, sprint lifecycle, and story management using Playwright.

Property Surveyor Web Application | *React.js | Leaflet | Redux Toolkit*

- Engineered a map-based property surveyor app with dynamic visualization using React.js, RTK Query, and Leaflet.js.
- Built multi-step forms with Formik and Yup (create, update, draft-save) and KML/KMZ-to-GeoJSON parsing for map plotting.
- Designed interactive click-to-inspect map interfaces for ownership, utilities, and workflow management.

Nagpur-Goa Shaktipeeth Land Acquisition System | *React.js | Redux | RBAC*

- Delivered a role-based 9-step land acquisition dashboard with OTP authentication and real-time status tracking across 500+ records.
- Built district/taluka/village-wise field tracking with custom interfaces for 3 user roles and workflow-driven reporting.

Reliable Bulk Hiring Dashboard | *React.js | RTK Query | Document Verification*

- Designed a walk-in hiring dashboard with real-time approval/rejection workflows and QR-based candidate registration.
- Built a hiring event management module with candidate counts, scheduling, and admin instruction panels.

VocoXp – Document Verification & Payment Platform | *React.js | Razorpay | RTK Query*

- Developed a multi-step document verification and payment platform with Razorpay integration for wallet and direct payments.
- Implemented Excel bulk upload/download with backend validation across reusable Upload, Pricing, and Verification modules.

TravMobile – Travel Dashboard | *React.js | Redux Toolkit | Tailwind CSS*

- Built a responsive travel management dashboard using React.js, Redux Toolkit (RTK Query), and Tailwind CSS with reusable components.

EDUCATION

Master of Computer Applications (MCA) — Savitribai Phule Pune University | Graduated: July 2022

Bachelor of Computer Applications (BCA) — Savitribai Phule Pune University | Graduated: April 2019

CERTIFICATIONS

React: The Complete Guide — Udemy | December 2021 – June 2022

Comprehensive training covering React fundamentals, Hooks, Context API, advanced patterns, and modern web development best practices.

Full-Stack Generative & Agentic AI with Python — Udemy | March 2026 – Ongoing

Learning Python, LLM application development, Prompt Engineering, RAG, AI Agents, LangChain, LangGraph, FastAPI, Docker, Vector Databases, MCP, and Multi-Modal AI.
